

جامعة نايف العربية للعلوم التكنولوجية

كلية الحاسب وأمن المعلومات

أمن المعلومات

العنوان

نموذج الوعي الأمني للتحويل الرقمي في المدارس الثانوية في المملكة

العربية السعودية

إعداد

ناصر موسى عبدالله آل مشفلة القحطاني

إشراف

الدكتور / حسن الشهري

رسالة مقدمة إكمالاً لمتطلبات الحصول على درجة الماجستير في

أمن المعلومات

الرياض

1441هـ - 2020م

Naif Arab University for Security Sciences
College of Computer and Information Security
Department of Information Security

**Security Awareness Model for Digital Transformation
in Saudi High Schools**

By

Nasser Musa Alkhatani

Supervisor

Dr. Hassan A. Alshehri

Submitted in partial fulfillment of the requirement for the
master's degree of Information Security

Riyadh

1441 – 2020

Contents

1	Chapter One: Introduction	1
1.1	Background	2
1.2	Problem Statement	4
1.3	Aims and Objectives	5
1.4	Research Questions	5
1.5	Significance of the Study	6
1.6	The Rationale of the Study.....	7
1.7	Variables of the Study.....	8
1.7.1	Cybersecurity knowledge.....	8
1.7.2	Skillset.....	8
1.7.3	Cybersecurity attitude	9
1.7.4	Cybersecurity awareness.....	9
1.8	Structure of the Study.....	10
2	Chapter Two: Literature Review	11
2.1	Background	11
2.1.1	Introduction.....	11
2.1.2	Future Gate project in Saudi Arabia Education	12
2.1.3	Information security and cybersecurity.....	14
2.1.4	There are four main types of cyber security.....	15
2.1.5	Common Types of Cybersecurity Attacks	17
2.1.6	Theoretical Models for Cybersecurity Awareness	20

2.1.7	Cyber-Security in High Schools.....	23
2.1.8	Cyber-Education.....	26
2.1.9	Cyber Attacks Awareness	29
2.1.10	The Development in the Area of Cyber-Technologies	32
2.1.11	Limitations in the Development of Technology	34
2.1.12	Education and Cybersecurity Gap.....	36
2.1.13	Role of Government in enhancing cybersecurity	38
2.1.14	The Cyber Security Challenge	39
2.2	Related Work.....	41
2.2.1	Previous Researches	41
2.3	Chapter Summary.....	45
3	Chapter Three: Methodology.....	46
3.1	Introduction	46
3.2	Research Philosophy	46
3.3	Research Approach	47
3.4	Research Design.....	48
3.5	Data Collection Method	49
3.6	Research Instrument.....	50
3.7	Sampling Technique.....	51
3.8	Sample Size	52
3.9	Data Analysis	52
3.10	Ethical Considerations.....	53

3.11	Chapter Summary	54
4	Chapter Four: Results and Analysis	55
4.1	Frequency Analysis	55
4.1.1	Cyber security Knowledge	56
4.1.2	Skills	63
4.1.3	Attitude	68
4.2	Correlation Analysis	72
4.3	Discussion	74
4.3.1	Effectiveness and Importance of Cyber-security Awareness Model	74
5	Chapter Five: Conclusion and Recommendations	77
5.1	Summarized Findings	77
5.2	Recommendations	80
5.3	Future Implications	81
6	References	82
7	Appendices	92
7.1	Questionnaire for Students	92
7.2	Questionnaire for Teachers	95
7.3	Questionnaire for Supervisors	98

List of Tables

Table 1: Different perceptions of respondents.....	51
Table 2: Number of participants.....	55
Table 3: Level of cyber-threats.....	56
Table 4: Cybersecurity news.....	57
Table 5: I.T departments is needed.....	58
Table 6: Computer labs are highly skilled.....	60
Table 7: Dealing with cyber-threats by themselves.....	61
Table 8: Aggregate Frequency of Teachers Skills (1).....	63
Table 9: Aggregate Frequency of Teachers Skills (2).....	65
Table 10: Aggregate Frequency of Supervisors Skills (1).....	69
Table 11: Aggregate Frequency of Supervisors Skills (2).....	70
Table 12: The Correlation.....	73

Table of Figures

Figure 1: Internet use by education.....	2
Figure 2: Level of cyber threats.....	57
Figure 3: Cybersecurity awareness models.....	58
Figure 4: I.T department is needed.....	59
Figure 5: Computer labs are highly skilled.....	61
Figure 6: Dealing with cyber-threats by themselves.....	62
Figure 7: Aggregate frequency of Teachers skills (1).....	65
Figure 8: Aggregate frequency of Teachers skills (2).....	68
Figure 9: Aggregate frequency of Supervisors skills (1).....	70
Figure 10: Aggregate frequency of Supervisors skills (2).....	72

List of Abbreviations

Abbreviation	Full Name
Aramco	Aramco Arabian American Oil Company (now Saudi Aramco)
ARPANET	Advanced Research Projects Agency Network
BYOD	Bring Your Own Devices
CERT-SA	the Saudi Computer Emergency Response Team
CIPA	Children's Internet Protection Act.
CSI	Computer Security Service Intelligence
DHS	Department of Homeland Security
DoS	Denial of service attacks
EE	the Educational Environment
FERPA	Education Rights and Family Privacy Act
HIPAA	Health Insurance Portability and Accountability Act
ICT	Information and Communication Technology
ID	Identification
IDEA	Disability Education Act
IDS	Intrusion Detection Systems
IMPACT	the International Multilateral Partnership against Cyber Terrorism
IPS	Intrusion Prevention Systems
ISP	The internet service provider
MITM	Man-In-The-Middle
NASCIO	National Association of State Chief Information Officers

NCA	The National Cybersecurity Authority
NGOs	Non-governmental organizations
NICCS	the National Education and Training Academy
NICERC	Comprehensive Network Educational Research Center
NIST 800-50	the National Institute of Standards and Technology Special Publication 800-50
NSA	the National Security Agency
NSLP	National School Lunch Plan
POS	Point-of-sale
STEM	Science, Technology, Engineering, and Mathematics
URL	Uniform Resource Locator, and is used to specify addresses on the World Wide Web
XXS	Cross-Site Scripting
